Election Board dismisses complaint against Brainard

By FRED SWIFT

The Hamilton County Election Board has dismissed a complaint alleging that Carmel Mayor Jim Brainard is improperly slating a group of fellow city candidates in the upcoming May 5 primary election.

The board met last week and received the complaint from Gregg Feigh, a self-appointed elections watchdog who called the board's attention to a mailer to absentee voters in which Brainard recommended voters consider his preference for city council and clerk-treasurer.

The mayor who has often been at odds with a majority of his city council urged the election of Jeff Worrell, Laura Campbell, Bruce Kimball, and Keith Griffin in addition to the re-election of Kevin Rider, Ron-

ald Carter and Sue Finkam as well a vote for Christine Pauley, who opposes clerk-treasurer Diana Cordray.

While there is a statute that provides those endorsing a slate of candidates must file their intentions with the county elections office, the statute has been ruled unconstitutional in the courts.

There has been no complaint of slating in other municipalities but it has become common knowledge that Noblesville Mayor John Ditslear has preferences for city

council while some other candidates favor challenger Mike Corbett which has led to a larger than usual field of council hopefuls.

The local election board is composed of County Clerk Tammy Baitz, Republican appointee Andrew Greider and Democrat Keith Clock. They met mainly to approve the set up of voting machines for the primary. By law the board is made up of the county clerk, and representatives of the two political parties.

At 4 locations...

Drug Take Back Day is Saturday

Mark your calendars: The Hamilton County Prescription-Drug-Take-Back Day will be held from 9 a.m. to noon Saturday. Locations in Hamilton County will be:

- Cicero – CVS – at 950 S. Peru St.
- Sheridan High School Parking Lot
- Riverview Health (Hospital) Parking Lot
- Marsh Supermarket at State Road 37 and 146th Street

The importance of this event is being underscored by its being held all across the United States on the same day. Studies show that a majority of abused prescription drugs are obtained from family and friends, including from the home medicine cabinet.

Per current government information, Drug-Take-Back programs for disposal of expired, unwanted, unused, medications is a good way to help ensure that un-needed, un-wanted drugs and medications do not fall into the wrong hands, or are taken by children.

Also, a major reason for promoting this drug sweep is that medicine that remains in cabinets can become susceptible to diversion and misuse. The Drug-Take-Back campaign is to reach out to people in the community, to encourage these households to get rid of such substances.

Substantially discounted...

Rain barrels available to Noblesville residents, business owners

Noblesville residents and business owners may purchase substantially discounted rain barrels while supplies last thanks to the Noblesville Clean Storm Water Program. In order to qualify for this program, residents/business must do two things: 1) Provide a City of Noblesville Wastewater Utility bill that shows his/her name and address, and 2) Take one or more of the online clean water improvement pledges at www.clearchoicescleanwater.org.

The rain barrels are available at the Hamilton County Soil & Water Conservation District office, 1717 Pleasant St., Suite 100, in Noblesville. The office is open 8

a.m. through 4:30 p.m. Monday through Friday. Residents may then buy a rain barrel for \$25 plus tax (payable with cash or check). The retail value of rain barrels is normally \$80 or higher but available at a lower cost courtesy of the Noblesville Clean Storm Water Program. There is a limit of one rain barrel per address.

“This is the third year we have partnered with the Soil & Water Conservation District to offer low cost rain barrels to Noblesville residents and businesses. Capturing rain water to use for gardening is not only good for your plants, but it also saves you money and helps to conserve drinking water ... for

drinking. This is just one of the many simple things we can do in our community to conserve and protect our local resources for our kids and grandkids,” said Tim Stottlemeyer, Noblesville storm water coordinator.

A rain barrel collects and stores rain water that would otherwise be lost. It is designed to keep debris and insects out (including mosquitos) and saves homeowners money by allowing them to use this free water for their gardens and lawns as well as car and window washing.

The Noblesville Clean Storm Water Program’s mission is to educate the public and promote practices that help improve the

quality of rain water that runs off into our streams, reservoirs, lakes, and rivers. Rain water can easily become polluted before running in to these bodies of water because of contact with pet waste, lawn fertilizers, litter, oil from leaking vehicles, and much more. The water that comes out of the faucets when we turn them on starts out as rain water, so the goal is to keep rain water as clean as possible by educating the public about easy ways to prevent water pollution.

For more information about the rain barrel program, contact the Hamilton County Soil and Water Conservation District at (317) 773-2181.

Information about soliciting in the City of Noblesville

Spring is finally here. The nicer weather means solicitors will be out in full force. Take some time to educate yourself on Noblesville's City ordinance regarding door-to-door solicitation.

1. The Solicitor Administrator conducts a background check on every solicitor a company wishes to use in our City limits. They are checked through nine different databases. After the background check is done, it goes to the Chief for the approval/denial.

2. Every solicitor that has passed the background check and has been permitted MUST have an ID Badge that is issued by the Noblesville Police Department. It includes their permit number, picture, name, company, and expiration date. They must be wearing at all times (while knocking in Noblesville) on the outer most layer of their clothing. An example of the badge is attached to this post.

3. If your neighborhood has a "No Solicitation" sign posted, it will not stop the solicitors from knocking on your doors. The best way to keep them away from your house is to post a "No Trespassing" or "No Soliciting" sign on your personal property. If a permitted solicitor ignores your signage (and that information is reported), their permit can be revoked.

4. They are not allowed to solicit any time before 9 a.m. or after 8 p.m.

For more information, follow this link <http://www.cityofnoblesville.org/egov/apps/search.egov> to the City of Noblesville webpage.

Wellbrooke of Carmel set to open soon

Hoosiers looking for resident-centered, state-of-the-art health care now have a new option in Carmel. Mainstreet and Trilogy Health Services are celebrating their latest development together, Wellbrooke of Carmel. The transitional care center is the first of its kind in Carmel, where Mainstreet is also headquartered.

Wellbrooke of Carmel is a joint venture between Mainstreet, who developed the property, and Trilogy, who operates it.

Construction started on Wellbrooke of Carmel in April 2013 and the property is tentatively scheduled to open end of April. A community open house is set for Sunday, May 3, from 1-3 p.m.

The 94-bed, 68,590-square-foot Next Generation property provides transitional care (short-stay, physician-driven rehabilitation and therapy) and assisted living in a service-rich environment. The property was designed to reflect Carmel's nearby Arts & Design District.

Wellbrooke of Carmel represents a \$15 million investment in the community. The project created 374 construction jobs and 120 permanent jobs at the property itself.

Leadership is mastering the context

By MARY SUE ROWLAND

From the editor's desk, Alan Murray of Fortune Magazine said in his last issue, "But when it comes to leadership, style matters". The late Warren Bennis book "On Becoming a Leader", he wrote "the difference between leaders and managers are the difference between those who master the context and those who surrender to it." Alan Murray believe that sums up the distinction and why some lead so well. Fortune Magazine has selected the top 50 Leaders (men and women) who have shown superior leadership from around the world working in government, business, non profits, and the arts. Each person on Fortune Magazine list has master the context.

Keep reading there is a surprise in this article.

From junior high school on, leadership is something to strive for but is something few can define. The "leader of the pack", "first in front of all others" or maybe just a lot of hard work can make a leader. "Leaders should lead or get out of the way" is a good thought. How is it a few leaders just don't know when they can no longer lead and just get out of the way? A person can have power and money yet still be a

"not so great leader" and the other way around. The best story is about the leaders who come from nothing but achieve something. Those stories are few also.

Talking about leadership brings to mind automatically an assumed success in whatever the effort. The list of 50 Great Leaders in the Word, is made up of mostly unfamiliar names and there are some surprises too. Do you know Tim Cook? Just look at your electronics inventory and thank Tim, CEO of Apple. He is #1. Pope Frances, Pontiff of the Catholic church has made the list the last two years in a row for his vision, fortitude and commitment to reform. How about Taylor Swift as a world leader? She is the highest paid women in the music business and not by accident. Chief Justice of the Supreme Court, John Roberts Jr. is recognized for his command of universal respect. Some expected inclusion of course, include Bill and Melinda Gates with their foundation giving away nearly \$33 billion toward eradicating preventable diseases in developing nations. Making the "Ice Bucket" challenge a national event and raising \$115 million toward a cure for ALS, Pete Frates knows more than anyone how important the effort. Pete suffers from ALS. Do you know about Ellen Johnson Sirleaf? She is the President of Liberia. She is the first female head of state in Africa. She should get the award for the most complex leadership position. Russian President Putin is known for making a deci-

sion and executing. He then waits for the reaction.

Here is the surprise. No. 41 on the list is Mitch Daniels, former governor of Indiana and current President of Purdue U. Yes, our Mitch! Not only was he a governor of change and accomplishment, he has managed to bring the academic world into the real world by cutting costs and great leadership. Mitch Daniels has had extraordinary success in and out of politics.

It should be said that leaders come in all shapes and sizes. Spotting a leader? You know it when you see it. The world can never have enough leaders especially in today's world. Remember the old game, "follow the leader"? Just remember to take your blind fold off before you do.

Thanks Fortune Magazine for all of the hard work in identifying the top 50 Great World Leaders.

Noblesville officials tour Cabela’s

Noblesville city officials took a tour of Cabela’s, which is under-construction at Hamilton Town Center. The 70,000-square-foot building is the first smaller prototype to include the power sports shop addition. Work is taking place inside and outside on the facility and is expected to be completed in May. A date has not been set but Cabela’s plans to open in the fall. When finished, the store will boast the custom features that it is known for: mountain, aquarium, taxidermy, interior fireplace with stone chimney, exposed timber ceilings and concrete floors.

Primary Election 2015

Congresswoman Brooks announces she will not run for Senate

Brooks

Rep. Susan Brooks (R-IN5) made the following announcement:

Dear Friends,

After thoughtfully considering the opportunity with David, family, friends, and supporters, I have decided not to run for

the open Senate seat in 2016. This morning we issued the statement below to the media and I wanted to share it with you as well:

"I am grateful to represent the 5th District of Indiana in the United States House of Representatives. It is a responsibility and mission that I appreciate more each day. The opportunity I have to lead and serve is one I value deeply. This is a critical time in the life of our nation, and I am optimistic about my ability to help meet the challenges we face."

"I have concluded that the best way to have a positive impact for Indiana is to continue the work I have started in the 5th District, along with my service on the Energy and Commerce Committee and the Select Committee on Benghazi."

"For that reason, I have decided that I will not be a candidate for the United States Senate in 2016."

"Running for statewide office is something I had not considered before Sen. Coats' announcement last month, but the encouragement I received was very hum-

bling. Friends and supporters alike have been very kind sharing their thoughts on the race and what they will be looking for in our Republican nominee. I anticipate this will be a well-run campaign that produces a constructive debate about the future of America and a Republican nominee that I look forward to helping win in November of 2016."

Thank you again for all of your support over the last four years and especially for your encouragement over the last few weeks.

Letters to the Editor

Candidates seem afraid to say much

Fred - Kudos on your article re: the bland campaigns we seem to endure here in Noblesville.

It sometimes seems as if candidates are afraid to say much at all; Heaven forbid that they might lose a voter or two by standing by their convictions, record, and/or plans for the future.

Glad you called them all on this one, thanks!

Term limits, polling places should be addressed

Could not agree more with Fred Swift's article on the upcoming primary election and our new lows regarding voter interest, apathy and recent dismal turnout. Given voter tendencies of recent it is most likely time for considering TERM LIMITS (statutory) for all positions of elected, local, regional and state government positions.. I think turnout in Noblesville was 7 percent in the last election and county was 12-15 percent. Another area to consider is voter lack of knowledge & interest in the real current issues. A majority of voters who are extremely honest will tell you they don't understand and have no real interest in TIFs, debt issues, traffic including non local truck traffic without any deliveries etc etc.

Name recognition is a real instrument since real issues are seemingly no longer important or for that matter even discussed in any type detail, written or oral. To further expand on this subject another important issue is the spelling of the last name and ultimate placement on the ballot when the voter as an example selects three of say 5 candidates. Statistically speaking the top three on ballot get selected unless a gender issue involved and those whose families have last names in the lower part of the alphabet more likely than not get fewer of those uninformed voters votes..For complete fairness purposes maybe a drawing should be used for ballot name placement when as an example 4 or more people are running for a position that requires the voter to pick 3 of?, which of course is in contrast to the current alphabetical scheme being used.

Another topic of interest to me and other voters is the overall total cost of each election when considering payment of the people working the many poling places etc.etc. Those precinct workers are getting harder to find with each election. Maybe its time to set up 10 to 15 polling places in county and allow voting for 30 days and use any poling place convenient to the voter. In other words any registered voter could vote at any poling place. With electronics as good as they are today this voter could easily be verified etc and status updated immediately.

Just some additional thoughts regarding the upcoming primary election.

Thank You.

Reach out and get your questions answered

I could not agree more with the recent sentiment regarding the lack of details from candidates, "I Love Noblesville" should be more of an expectation for your councilperson and not a platform from which to run. It is an incredible responsibility to manage the hard earned tax dollars of your friends, neighbors and colleagues and I encourage people to actively reach out, ask specific, detailed and difficult questions and make sure YOUR hard earned tax dollars are being re-invested back in into the community wisely. As accessible or e-accessible as I try to be, with social media, ringing door bells, working downtown and volunteering for community events, it appears there will be only one public forum this year in Noblesville and regrettably it is so late that many people have early voted or made up their minds without getting those questions answered. So if you have not voted, made up your mind or have concerns, contact the council candidates, via phone, email, in person, social media or check out their websites and most importantly, ask questions and get detailed, specific answers.

Some candidates have been working with Noblesville city departments for years, have had detailed platforms posted for months and are uniquely prepared for the bright future of Noblesville. So when you meet a candidate, standing on your front porch, via the phone or social media, it is very important to reach out and get your questions answered. There will soon be 9 council members, managing YOUR tax dollars whether you vote or not, so take time to get your specific questions answered and VOTE !

Millers edge Zionsville by a point

Noblesville's Dilan Palmer won the pole vault at the Millers' girls track and field invitational on Wednesday.

It was a long, chilly night at Hare Chevrolet Field Wednesday, but it was worth it for the Noblesville girls track and field team in the end.

The Millers won their own invitational, squeaking past Zionsville 120-119 for first place. Westfield finished third, not too far behind with 108 points. Hamilton Heights scored 27, but did pick up an event win.

Noblesville had four victories at the meet. Deja Cox placed first in the 300 hurdles, Abi Little easily won the 3200 run, Dilan Palmer took the pole vault, and the Millers' 4x400 relay team ended the running events with a first-place finish.

"As far as our performances went today, I'm really happy," said NHS coach Dennis Scheele.

The Shamrocks emerged with four wins as well. Karen Hubbard zoomed to a victory in the 100 dash, Jada Caldwell was first in the shot put, and Westfield's 4x800 and 4x400 relay teams were also winners.

Macey Policka won the Huskies' lone event, the 100 hurdles.

Heights falls to Alexandria

Hamilton Heights couldn't match, nor stop, Alexandria's heavy hitting Wednesday as the Tigers roared to a 9-5 baseball victory over the Huskies. Alexandria unloaded two home runs among its five extra base hits and broke a tie in the bottom of the fifth. Coach Rick Hawley's squad

Nicholson

opened the game with two runs in the first on singles by Seth Harris and Ian Nicholson and a double by Mitch Howie. The Huskies added their final three runs in the fourth on singles by Aaron House and Treyton Trent, a two-run single by Reese Wills and a RBI ground out by Max Wahl. Nicholson collected two of the Huskies' seven hits. "Tonight was a case of a tough play (actually two) on defense," Hawley said. "One thing I feel positive about is that our guys thought they should have won, and we did have the game right there to be taken." Alexandria has an 8-1 record.

"We did have a couple of good defensive plays," Hawley continued. "Max Wahl made an excellent leaping/diving stab of a line drive headed to center and Jacob Hammel also made a nice diving catch of a little pop near the third base line."					
Hamilton Heights, now with a 4-7 record, Saturday will host Elwood in a double-header.

Offense erupts to help Tribe take series

Elias Diaz had three hits and his first Triple-A homer, Alen Hanson drove in three runs and the Indianapolis Indians took two of three games from the Columbus Clippers with an 8-6 victory on Wednesday afternoon at Huntington Park. Diaz lifted his solo homer off reliever Kyle Crockett to break a 3-3 tie in the top of the eighth. The prized catching prospect also doubled and scored in the sixth inning while finishing a triple shy of the cycle. Fellow top prospect Hanson went quiet through his first four at-bats before clearing the bases behind Diaz with what proved to be the game-winning triple. Hanson's RBIs were his first of the season and provided just enough insurance for the Indians (6-7) to withstand Columbus' (6-7) three runs over the final two innings. Closer Blake Wood preserved the lead and earned the save with one run in 1 1/3 innings of work. He recorded each of his four outs via strikeout, including a bases-loaded punchout of rehabbing big leaguer Zach Walters in the bottom of the eighth and a whiff of top prospect Francisco Lindor with the tying run on base in the ninth. Steve Lombardozzi and Mel Rojas Jr. also contributed three-hit efforts for the Tribe, and both finished with a run scored, one RBI and a double in the victory.

Sheridan wins big battle

Sheridan, which on Tuesday dropped its first game of the season in a Hoosier Heartland Conference loss to Clinton Prairie at the Blackhawks’ Kent Harris Field, Wednesday visited Clinton Prairie and came away with a 4-2 victory.

Thanks, for the most part, to Sam Crail. “Crail threw five innings on Monday and had a respectable pitch count so he went for an inning into a heroic outing,” said Sheridan coach Matt Britt.

In the victory last night, Crail tossed three innings of relief with four strikeouts to pick up the win. He also hit a two-run

homer in the eighth and before hat had a two-run single in the fifth.

Sam Wetherald made a difficult catch to extend the game in the bottom of the seventh.

“We kept our calm and made a come back late in the game in which Clinton Prairie was in charge throughout the early innings,” said Britt.

“Kyle Harwood came back from a shaky outing Monday to keep us in the game. He gave some very important innings against a hot-hitting Clinton Prairie team,” Britt added.

The win moved Sheridan to 7-1 overall and 3-1 in conference play. The Blackhawks will travel to Eastern tonight for a 6 p.m. start.

Greyhounds run past Pike

Carmel scored three runs in the first and two in the third and that’s all pitchers Mick Maier and Seth Keeling needed to lead the Greyhounds to a 13-3 MIC Conference win over Pike Wednesday at Hartman Field.

Just in case, Coach Dan Roman’s club plated another seven runs in the fifth in a game which ended on the 10-run rle by Carmel scoring again in the sixth.

Maier, the winning pitcher, threw four innings and allowed just one earned run and

three its. Keeling fired the last two frames, giving up no hits and no runs.

At the plate, Carmel scored 13 runs on just six hits ... along with five Pike errors.

Conner Cunningham knocked home three Carmel runs Tyler Blackinton had Carmel’s only extra base hit, a double.

Fishers JV baseball wins thriller

The Fishers junior varsity baseball team JV Tigers won a 4-3 thriller over Brownsburg on Wednesdays.

The Bulldogs scored first in the top of second to take a 1-0 lead. The Tigers scored 3 in the bottom of the 4th to take the lead. The scoring started after singles by Matthew Wolff, Taylor Soper and Craig Yoho. Parker Wells drove in a run on a fielder's choice followed by Evan Patrick’s single to plate the final run. The Bulldogs would score two runs in the top of the seventh to even the game. Nathan Humphrey led off the final at bat for the Tigers by drawing a walk. He advanced to second on a passed ball and went to third on a ground out by Nick Rothrock. After the Bulldogs walked Matthew Wolff, Taylor Soper drove in the winning run on a hard hit ball up the middle.

The Tigers had seven hits on the day led by Evan Patrick with two. Starter Craig Yoho went four innings allowing one run and scattering two hits. Taylor Soper pitched the fifth and sixth very well to give the Tigers a chance. Evan Patrick earned the win after coming in to a jam in the top of the sixth and getting out.

The Tigers return to action tomorrow for Game 2 of the series. The next home game for the Tigers will be at 11 a.m. on Saturday vs. Brownsburg.

ISSUES
ECONOMIC DEVELOPMENT
Noblesville must work tirelessly to bring the right jobs to our city, as well as work with existing businesses to expand and grow.
QUALITY OF LIFE
We must push forward with quality of life initiatives such as parks, trails and green space. The completion of the Midland Trace Trail project must be a priority.
SCHOOLS
Noblesville Schools are our community's best asset, as well as our biggest economic development driver. We must work closely with the school administration to tell the success story of Noblesville.
PUBLIC SAFETY
Our first responders are the backbone of our city, and they must be properly trained and funded. Noblesville is a safe community and must remain this way.
