One of the 28 young women in this picture (alongside the 2015 Queen Madison McFadden) will be the 2016 Hamilton County 4-H Fair Queen. The new queen will be crowned at this Friday's 4-H Fair Queen Pageant, which takes place at 7 p.m. at the Hamilton County Exhibition Center.

Twenty-eight contestants this year...

4-H Queen Pageant scheduled for Friday

The Hamilton County 4-H Fair season is about to begin, and it will start with the crowning of the 4-H Fair Queen.

Twenty-eight young women will be competing for that honor Friday night, which is when the 4-H Queen Pageant takes place at the Hamilton County Exhibition Center. During the pageant, the 4-H will also recognize the 10-year members and the scholarship winners.

Here is a list of the 28 contestants, their 4-H affiliation and their parents. Pictures of each individual contestant can be seen on Page 5 and 6.

Heights Project Vision...

Future focused for 21st Century education

Hamilton Heights School Corporation's Project Vision is a multi-faceted plan created in 2012 to ensure the school corporation remains a sustainable, high quality educational institution. While this plan has been officially coined "Project Vision," Heights has long been forward-focused in its approach to meeting the ever-changing needs of its students and raising the academic bar. Its facilities, curriculum, technology, educators, support staff and programs collectively provide students with "21st century skills" to thrive in today's highly competitive workforce and increasingly global economy.

While peering into the future is not an exact science, Heights has had a knack at having success in forecasting what is needed to support education now and 5, 10, and 20 years down the road – especially in the area of facilities. Dr. Derek Arrowood, Hamilton Heights School Corporation Superintendent, says it has been the leadership and vision of past and present school board members, administrators, educators, support staff and the community who have helped the district to successfully meet the many challenges and changes that are inherent in the field of education including rising costs, state mandates, funding, technology, facilities, maintenance and student enrollment among a few."

Project Vision is a well thought out long-term plan that has been years in the making to help the district get the best use and improvement of facilities to support education in 2024 and beyond without increasing tax rates. It involved input from district personnel, community and focus groups. It relied heavily on factual data (past, present and future), analysis, trends and studies at the local, state and national level. The information gathered was designed to help district personnel make informed decisions on the most efficient and effective use of space, programs and services within Heights' four buildings and the costs of doing so.

Early building enhancements that evolved through Project Vision included

the expansion, remodeling and renaming of the high school media center to the Anthony J. "Tony" Cook Media Center and revitalizing the high school cafeteria into a state of the art dining center in 2014. In addition, state of the Art High School Science Labs, a High School Chiller Replacement, two new soccer fields, and enhanced athletic turf were completed in 2015. Projects planned for this summer include installation of white boards at the Primary, Elementary and High School, new road construction to improve the flow of traffic during pick up and release at the Primary, Elementary and High School, and a new High School Soccer Facility.

Currently underway is the corporation's Grade Reconfiguration Plan, in which four scenarios were created to address facility usage due to a changing enrollment. Heights has traditionally afforded its students generous spacing for learning, programs and activities. The Grade Reconfiguration Plan looks at four options to make the most efficient use of the current space and how the space can be better utilized for a declining population. This includes the cost of maintenance, repairs and construction.

The plan was developed in part through a population study provided by nationally recognized demographer, Dr. Jerome McKibben, review of current space and usage for all programs and a projection of what will be needed in the future. (Dr. McKibben's presentation is posted on the Project Vision website). A base cost plus Project Vision components were developed along with optional costs to add to the baseline and Project Vision totals for the estimates of short and long term costs related to each scenario. Additionally, estimates were calculated to determine how each scenario would financially impact instructional programs supported by the General Fund now and well into the future., "The primary impetus for this project is provide data that allows us to make informed decisions that drive money into the classroom while not over investing or under investing in facilities," said Associate Superintendent, Peggy Jackson, who has been an integral component of Project Vision since its inception.

A change in enrollment up or down brings with it challenges either way. In Heights' situation, enrollment is on the

decline. The four viable scenarios and associated costs were presented to administrators and educators in February and a decision was made in March to continue investigating Scenario's 1 and 4B as options. Scenario 1 keeps all building configurations the same and Scenario 4B changes the Primary School to PK-4, the Elementary becomes the new Middle School with grades 5-8 and the High School stays the same. The Middle School gyms, office areas, and some classroom space remain. The administration's recommendation is that 4B best meets both an academic and long-term financial investment perspective.

Focus on facility usage and the most efficient way to utilize space is an integral component of Project Vision due to the costs involved in maintaining, energy usages, heating and cooling the buildings.

Heights, which currently uses about 70 percent of the space in each of its buildings, remains above the National Median when it comes to how much square feet is allotted per student. Currently Heights is at 269 square foot per student with the national median for the top 25% of new construction in 2014 at 208 and regional median (IN, OH MI) at 153.5 square foot per student. "Most of the savings in 4B will be from reorganizing staffing to better serve students, not reducing utilities because the plan adds back almost the same amount of square footage as it reduces," noted Jackson. It also will not reduce instructional staff."

Detailed information and data is posted related to Project Vision is available on Heights website at www.hhschuskie.org/domain/152.

system over the next 5 years. The results of the study will be the development of a Master Parks Plan that outlines the needs of the community regarding recreation. The plan requires input/comment from the public to help shape the overall vision and direction for the parks system in Cicero.

The public is invited and encouraged to attend the open house to learn more about the goals and objectives of the plan, the need for improvements, and potential additions to facilities and programs. The Town's consultant, Butler, Fairman, and Seufert will be available to speak with individuals about each of these topics and to answer questions from the public.

The Town of Cicero and the Parks Department look forward to hearing from the public regarding the future of the parks system in Cicero and we thank you for your time.

For additional information regarding the open house or the plan, please contact Jason Griffin, Project Manager, at 317.713.4615 or JGriffin@bfsengr.com.

DAR sets Guinness World record...

Horseshoe Prairie Chapter helps collect 100,904 letters to military personnel in one month

To celebrate the National Society’s 125th Anniversary and the culmination of the Celebrate America! volunteer service initiative, the Daughters of the American Revolution (DAR) channeled its fervor for patriotism and dedicated support of our nation’s military service members toward an ambitious goal. During the week of the 125th Continental Congress, held in June at DAR’s Washington, D.C., headquarters, the organization set an official GUINNESS WORLD RECORDS(TM) title in patriotism for “most letters to military personnel collected in one month.”

DAR members possess an unwavering patriotic devotion that spans the organization’s 125-year history. During the past three years alone, Daughters have devoted more than 2.2 million hours of service to veterans, honored more than 288,000 Vietnam War veterans, and donated more than \$250,000 in support of active duty service members and their families. The GUINNESS WORLD RECORDS(TM) attempt served as a test: Could the membership exceed its already high standards of support for our military?

Achieving this ambitious goal required the National Society to collect and then mail at least 10,000 letters to active-duty service members. As dictated by the GUINNESS WORLD RECORDS(TM) guidelines, all letters had to be handwritten, addressed to an active duty service member, placed inside a stamped, unsealed envelope, and delivered in person to one of the designated stations set up at DAR Headquarters. A DAR representative brought the chapter’s letters to Washington, D.C., and hand-delivered them to a collection station. Letters of appreciation filled more and more boxes as the week progressed, and an official GUINNESS WORLD RECORDS(TM) adjudicator arrived to conduct the verification process.

The carefully tallied total was revealed at the National Defense Night ceremony on Saturday, June 18, 2016. As thousands in attendance waited to learn the outcome of the attempt, members surprised them by carrying in box after box to give a visual representation of how many letters were submitted. The adjudicator took the stage to announce the results using a number tally on the big screen. Cheers increased as soon as the number topped 10,000, but then the audience, including the night’s special guests, Secretary of Veterans Affairs Robert McDonald and the USO President and CEO, Dr. J.D. Crouch, all went wild when the tally surpassed 100,000. The DAR had collected 100,904 letters, more than 10 times the minimum threshold needed to set the record for most letters to military personnel collected in one month!

“Congratulations—you are officially amazing!” the adjudicator proclaimed.

This record-setting achievement provides the latest measure of the collective force of the DAR’s appreciation for the United States Military, while simultaneously fostering human connection between the American people and those who defend our freedom. As devoted stewards of the legacy of the Revolutionary War generation, Daughters feel equally compelled to express appreciation for the valor, sacrifice and commitment of today’s active-duty service members. Each letter represents the support of a grateful nation, and Horseshoe Prairie Chapter is humbled by the opportunity to assist in collecting these missives to the defenders of our country.

By the end of June, all 100,904 letters were on the way to active-duty military personnel serving both at home and abroad. May their handwritten messages of gratitude and encouragement cheer the spirits of those who have raised their right hand and sworn to defend and protect the United States of America.

DAILY BIBLE VERSE

And every one that heareth these sayings of mine, and doeth them not, shall be likened unto a foolish man, which built his house upon the sand: And the rain descended, and the floods came, and the winds blew, and beat upon that house; and it fell: and great was the fall of it.

- Matthew 7:26-27

50 Years Ago

News: Warned not to be “limited by the Prosecutor’s office”, the Hamilton County Grand Jury this morning was convened and went into closed door session with Prosecuting Attorney Walter Cornell. The jury met at 9 a.m. in the Hamilton Circuit Courtroom where Judge Edward F. New Jr. told the jurors they should not be limited by the Prosecutor, that they are “an arm of the Circuit Court” and the “most powerful investigating body investigating body in these United States.”

Sports: The Anderson Olympians, featuring solid pitching throughout the tournament, repeated as champions of the District 12 Babe Ruth tournament by nipping the Anderson Nationals, 4-2 at the Noblesville Forest Park diamond Sunday evening.

Torchbearers announced for Hamilton County leg of Bicentennial Torch Relay

A total of 38 individuals chosen by a community selections committee will represent Hamilton County the afternoon of Oct. 13, when the state's bicentennial celebration torch makes its way to the county seat over a four hour time period.

The selected torchbearers include firefighters, entrepreneurs, teachers, coaches, athletes and volunteers who have dedicated their lives to making Indiana a better place to live, work and play. (The complete list of nominated torchbearers is included at the end of this release.)

"All of our torchbearers have affected positive change in many ways," said Brenda Myers, Hamilton County Tourism president and chief executive officer. "The decision was not easy. These 38 people showcase how Hamilton County is a part of a bigger story in the state's history."

Other Hamilton County relay nominees received a certificate and will receive a shirt to wear on the day of the relay. The committee used state criteria to narrow down the field from an excellent pool of candidates.

The torch will enter Hamilton County from Boone County at Zionsville Presby-

terian Church at 3 p.m. Oct. 13. The torch will then travel through Carmel, Westfield and Fishers, changing hands at planned stops before landing on the historic Noblesville Square at 7 p.m. The public is invited to attend at "celebration stations" in each city. More details on celebration stations can be found at VisitHamiltonCounty.com/200.

Patterned after the Olympic Torch Relay, Indiana's bicentennial torch relay will pass through all 92 of the state's counties and cover more than 2,300 miles over a six-week period. The relay will start Sept. 9, 2016, in Corydon - Indiana's first state capital - and end Oct. 15, 2016, at the Indiana statehouse. The torch will travel six days per week for five weeks.

Volunteer county coordinators are organizing torch relay activities in their respective counties. Additional volunteers will be needed to assist with the preparation and execution of relay-related activities. Hoosiers interested in volunteering can sign up at the Indiana Bicentennial Torch Relay website.

For more information on the Indiana Bicentennial Torch Relay, visit <http://www.in.gov/ibc/torchrelay>

Five-year lease at The Switch in Fishers...

Citizens State Bank to expand services in Nickel Plate District

Citizens State Bank announced plans to open a full-service bank branch in The Switch development located in the Nickel Plate District today. The expansion marks the first bank in the Nickel Plate District and is expected to open later this year.

"Fishers has been a part of Citizens State Bank's growth strategy for some time," said Dan Maddox, Citizens State Bank president. "We opened a loan office in 2013 with long-time Fishers resident John DeLucia at the helm and later hired another Fishers resident, Elliott Somers. As we looked at locations for a full-service bank, Fishers' vibrancy made it a logical choice."

Citizens State Bank has signed a five-year lease at The Switch, located on the corner of 116th Street and Municipal Drive. The branch will occupy 3,200 square feet and plans to hire an additional five employees. In addition, Citizen State Bank's mortgage loan officer, trust officer and treasury management officer will be available to meet with clients at this location.

"This is a great addition to the Nickel Plate District," said Mayor Scott Fadness. "Citizens State Bank has already proven to be a great community partner through sponsorship of our Parks Department and Fishers Freedom Festival, and I welcome the expansion into our downtown."

"A smart, vibrant and entrepreneurial city needs a bank in the heart of its business district. What is happening in Fishers is very exciting, and we are very excited to be a part of it," said Maddox.

The new branch is expected to open in the fourth quarter of 2016.

I-69 construction update...

Traffic shift between 37, Campus Parkway

Milestone Contractors shifted northbound I-69 traffic lanes toward the right shoulder last week to accommodate construction of an additional travel lane in the median between State Road 37 (Exit 205) and Campus/Southeastern Parkway (Exit 210). Southbound lanes in the same section are scheduled to be shifted later this month.

This week, crews are setting temporary concrete barrier along the interstate median to begin construction of an additional travel lane. Setting concrete barrier will require lane closures each night this week between 9 p.m. and 6 a.m.

Campus/Southeastern Parkway Exit 210

Construction of the new double-cross-over diamond interchange configuration is underway as Milestone has narrowed Campus Parkway traffic lanes to 11 feet wide, set temporary concrete barrier along the bridge over I-69, and started earthwork for the new interchange ramps.

Motorists will notice an increase in construction activity at the interchange and should be alert for workers in the area and trucks entering and exiting the roadway.

The first phase of interchange construction will widen the bridge over I-69 and begin building the new ramps. Later this summer, traffic will be shifted into a double-crossover diamond configuration, which is intended to improve traffic flow

during construction of the permanent interchange improvements.

For more information about construction at the interchange, go to <http://www.in.gov/indot/3441.htm>.

Interstate 69 patching & paving

Milestone Contractors plans to continue patching existing northbound pavement north of Campus Parkway Exit 210. The patching operation will continue north over the next several weeks to the end of the project limits, which is just past State Road 38 (Exit 219), before returning southbound on I-69 back to Exit 210.

Milestone is repairing pavement on about 15 miles of interstate before paving a new asphalt overlay on existing lanes. Motorists may temporarily experience rough pavement after sections are patched and before sections are paved.

Weather permitting, patching and paving operations require alternating lane closures six nights a week on Monday through Saturday nights from 9 p.m. to 6 a.m. One lane of I-69 will remain open at all times, and two lanes will remain open during peak daytime travel times.

The speed limit on I-69 through the work zone is reduced to 60 mph and further reduced to 50 mph when workers are present. Motorists should also be alert for trucks entering and exiting the highway through the construction zone.

Summer football...

Fishers Tigers are busy

By DON JELLISON
Reporter Editor

Following a 7-4 season, there are lots of holes in the skilled positions to fill in the Fishers football program this summer.

Zach Eaton, who threw for over 1,600 yards, graduated. So did leading rushers Jeremy Chinn and Jermaine Huddleston and leading receiver Kade Orris.

Also gone are defensive standouts. Defensive aces such as Zeke Dunnuck and Michael Folta. Count Chinn in that group.

Those, and others, are key positions Coach Rick Wimmer started the summer season searching to fill.

It has been a busy summer for the Tigers. “We have been lifting and speed and agility sessions three days per week,” Wimmer said as summer winds down and fall football is just around the corner.

“We have completed eight of our 12 days of padded practices,” the coach added.

The Tigers have hit the road. They traveled to DePauw University and took part in a three-day Bishop-Dullaghan team camp with Ben Davis, Columbus East, Crown Point and Westfield.

Fishers also traveled to Lake Central for drills and controlled thud scrimmages.

“This week our players are continuing lifting and speed and agility sessions in the mornings and returning in the evenings (four nights) for senior-led conditioning sessions during Senior Pride Week,” Wimmer continued. “We also are hosting our youth and junior high camps this week.

“We are having no football drills this week, only lifting, speed and conditioning work.”

Next week Fishers will have its final four padded practices when hosting its own team camp

“We will continue our strength work in the mornings for three days.

“We will give our players a battery of eight physical tests on Monday, July 25,” said Wimmer. “Following that testing they will have the rest of the week off before beginning practice on August 1.”

Kirk Green/File photo

Fishers head football coach Rick Wimmer has taken his team to the Bishop-Dullaghan team camp and a controlled scrimmage at Lake Central during what has been a busy summer for the Tigers. Fishers is working on lifting and speed and agility sessions this week.

Sheridan Horseshoe League...

First half finishes with United Feeds on top

The first round of the Sheridan Horseshoe League Pitchers has finished their first half of the season. United Feeds’ Richard Reddick and Sam Gibbons were able to assist their team by tossing 372 and 365 handicap series. This enabled them to take 1st place for the first half of the season. O’Reilly Auto Parts placed second in the standings trailing the leaders by 8 games. Price Heating trailed in third 11 1/2 games behind. The league has started their second half of the season, giving all teams a chance for a play-off. The league's second half winner will have a playoff game with United Feeds, unless they repeat.

The second half of the season had a wild start United Feeds dropped all 10 of their games to Price Heating lead by rookie Susan Dwigans of Westfield. Susan had her best night of the year, topping pitchers in three of four categories. Fellow teammate and captain Jeff Ogle helped with an actual series of 185.

Standings as of July 12

	Wins	Losses	Points
Price Heating	10	0	1468

Guerin Catholic’s Brennan Theinemann will play free safety for the South team at Friday’s Community Chrysler North/South All-Star Football Game, which kicks off at 7 p.m. at North Central.

Six Hamilton County players on the South team at the...

North/South All-Star Football Game

Six recent Hamilton County high school graduates are back in football preparation mode this week, as they are taking part in the Community Chrysler North/South All-Star Football Game this Friday.

The 50th edition of the game is scheduled for 7 p.m. at North Central High School. All of the county players are on the South team, and there is one from six different schools on the roster.

Five of the players will be on offense, starting with Hamilton Southeastern's star running back Aaron Matio. Westfield's representative will be tight end Bryce Sears, a part of the Shamrocks' sectional championship team last season. Playing on the offensive line are Noblesville's Eric Ferguson, Carmel's Chase Krauter and Fishers' Titus Martin.

On the defensive side, Guerin Catholic's Brennan Theinemann will play free safety.

A complete roster for both the South and North teams is listed below.

Friday night’s game roster

					From IFCA.net				
SOUTH OFFENSE					NORTH OFFENSE				
QB	Luke Johnston	Southport	6-5	210	C	Titus Edwards	Winchester	6-2	195
