For several years now we have been encouraged to use as not to offend those who don't celebrate Christmas. There has been some push back on that one. I've noticed the more conservative newsmen and others on national TV going out of their way this year to wish listeners a Merry Christmas.

But, overall PC is still on the move. I'm one who is

I still get confused as to whether I can knows. call a female a girl if she looks 18 or more. I guess that is politically incorrect even though females of substantially greater age often call themselves girls. I know you're not supposed to call a female restaurant employee a waitress. It's now a server. And, I don't understand why a former airline stewardess is now a flight attendant. To me stewardess sounds more professional and accurate.

Even our local public schools have adopted PC when referring to holidays. It's now Winter Break instead of Christmas Vacation, and Spring Break instead of Easter Vacation. You can't leave any religious connotation in such things as vacations.

News: Another chapter in Carmel's annexation woes opened early this week when community leaders discovered they are faced with a new problem involving past annexations to the town.

Sports: Noblesville basketball teams and holiday tournaments go together about like fried eggs and spinach for breakfast. Several of Coach Glen Harper's finest Miller squads stumbled in holiday tournaments, and even the 1963 team, which advanced to the Ft. Wayne semi-state, had to hold on for a couple of one-point victories in their holiday meet.
