Local officials await COVID relief rules

By FRED SWIFT

ReadTheReporter.com

County and municipal government officials are awaiting guidelines on how massive COVID relief grants can be spent. The money, which begins coming to local entities on May 10, is designed to replace revenue lost because of the national pandemic.

Nationwide, about \$1.9 trillion will be granted to government units, companies and individuals who suffered losses in the

Little is yet known about the specific rules of where the funds can be spent. But, apparently one place it cannot be used is to replace any future local tax sources such as property tax and local income tax.

Hamilton County government and cities and towns within the county will be getting a total of well over \$100 million. The local governments did not suffer the extreme financial hardship that some areas and their populations experienced.

County government will be getting \$65.5 million, while the City of Noblesville is scheduled to receive slightly over \$14 million, and Carmel \$20.6 million.

When guidelines are received, county commissioners and city and town administrations may outline departments, recipients or qualifying projects for the funds. The money must then be appropriated by respective councils of the various units.

Prosecutors throughout Indiana have said charging dealers with the new statute sends a clear message that they will be held accountable.

Around 5 p.m. at the Defendant's home in Noblesville, the Defendant met with this other guy and gave him the drugs two grams for two hundred dollars. The Defendant went on with his day and his life.

You will learn that Tyler Humphrey was the other guy. He went home with the two grams of what he thought was heroin. He hung out with his mom and his sister, watching TV with them that evening, but Tyler started using the drug and went up to his bedroom. Tyler was high and apparently continued to use the drug into the night. He was found dead the next day by his mother.

His anxiety medications did not kill him. Be it alone or in combination with Tyler's prescriptions, the two grams of fentanyl that the Defendant gave Tyler for \$200, killed Tyler; it ended his life.

But when I was introduced to Prevail of Central Indiana, I was shocked by the number of individuals who are affected by domestic violence. In 2018 alone, Prevail helped more than 4,000 clients in Hamilton County. (Nearly 80 percent of clients are women and children.) Domestic violence and abuse are hard topics to discuss, so you don't often hear about them. Schaibley: Let's continue pushing forward

Throughout Women's History Month, we reflect and commemorate the legacies of women who came before us and who paved a way for more females to be leaders and have a voice in their communities. While we have made great strides in ensuring women have a seat at the table and in the board room, we can do better.

Women bring another perspective to a wide range of issues, and in order to continue honoring those who helped break down barriers, we must step outside our comfort zones and continue pushing forward.

We didn't do it: Don't hold all gun owners responsible for the bad actions of one

People who hate guns can't seem to want to be left alone. Perhaps this will

Surveys from Pew, Harvard, and Northeastern indicate approximately 72 million Americans own guns. On the afternoon of March 22, while 71,999,999 of those estimated 72 million were at home or otherwise engaged in normal, day-to-day activities, ONE was not.

For some reason, that ONE – Ahmad Al Aliwi Alissa walked into a grocery store and opened fire. He and he alone murdered 10 people in a grocery store in Boulder, Colo. Then, right on cue, the media puppets, the Hollywood hypocrites and the president of the United States declared the other 71,999,999 gun owners accomplices, in need of having their firearms confiscated and banned. They were not there, they did not participate, they did not approve of or help promote that one man's subhuman actions, and yet they are to be punished and could potentially have their property confiscated. Jane Ellen (Collins) O'Boyle April 24, 1954 - March 17, 2021

Jane grew up in Noblesville and graduated from Indiana University with a Bachelor of Arts in Forensic Studies. She was a beloved daughter of Willie and Sarah Collins and middle sister to Susan White and Kitrice

> Jane and Patrick O'Boyle were married on May 2, 1987 when she lovingly accepted the role of mother to four children, David, Jennie, Katie, and Ryan (eventually mother-in-law to Aubrey, Darrell, and Jenae). Along with their colorful mix of teddy bears and friends, the family never missed a vacation to the mountains of Colorado, Wyoming, and Montana. Her most memorable road trips

were the individual annual adventures to Yellowstone National Park with grandkids. Jane was Grandma to 13 grandchildren, three great-grandchildren, and one on the way.

After 35 years in the electronics industry, Jane and Pat retired to the mountains of Flagstaff, Ariz. Retirement didn't suit Jane well, so she found a job at Walmart to keep busy. Much to her surprise, she was progressively promoted to store management thanks to her strong work ethic, inspiring leadership, and organizational skills.

Jane developed many friends who became family through sharing her passion for crafting, interior design, and holiday décor. Her generous spirit warmed the hearts of her extended family.

She will be missed deeply, but Rejoice! She will surely be blessed in heaven as she rejoins our Heavenly Father and all she has loved who have gone before her.
