Prevail, Inc.'s annual fundraising event brought in over \$280,000 to support victims of domestic violence.

## Prevail, Inc.'s Celebration of Hope an outstanding success

Prevail, Inc. has announced that its Celebration of Hope, presented by Hare Chevrolet was another successful opportunity to engage the community in providing hope and healing for friends and neighbors who need it. Thanks to all the supporters, this year's event raised over \$280,000 to support victims and prevent future violence in the Hamilton County community.

In addition to the Presenting Sponsor, Hare Chevrolet, the event was sponsored by Partner Sponsors, Biddle Memorial

Companion Sponsors, Gaylor Electric and BMO Harris Bank.

The evening began with a cocktail hour reception supported by Power Careers. Dinner followed, where attendees had an opportunity to purchase a Golden Ticket that provided them with a chance at the Dream Vacation of their choice. During dinner, attendees enjoyed a program with a presentation from a courageous speaker who credits Prevail with restoring hope to those who most need it. The program was

Dessert was an assortment of delicious cupcakes provided by Heavenly Sweets, and to top the night off, everyone enjoyed dancing with Dave and Rae. The Renaissance Hotel North is a lovely setting for this event, which would not happen without an extraordinary Event Planning Committee who works all year to make it possible.

#### Gerrymandering is the biggest threat to Indiana businesses

As a member of the Senate Elections Committee, I participated in hearings across the state and listened to Hoosiers about why they deeply care about a fair redistricting process. Their message was very clear - an external citizens' redistricting commission

should draw the maps in a fair and transparent process. Since the legislature did not pass my Senate Bill 283 last session to create such a commission, the public expects legislators to keep communities of interest together and not favor either party or incumbents when they draw district maps.

The most profound argument that was made was about the effects of gerrymandering, which leads to a deterioration of the institutions of our democracy, a rigged system of elections by which the outcomes of the next 10 year's elections are already pre-determined, a rise of extreme partisan politicians who will push for cultural wars and a weakened business climate that will threaten Indiana's businesses from being able to compete both on the domestic and global stages.

## Get your fill of ham & beans on Saturday at Sheridan's Boxley Cabin

#### **Submitted by STEVE MARTIN**

On behalf on Sheridan Historical Society

The Sheridan Historical Society will hold a fundraising event at Boxlev Cabin in Veterans Park in beautiful uptown Sheridan on Saturday, Sept. 18. The supper begins at 4 p.m. and ends at 6:30 p.m.

For the meager price of \$8, you will get a healthy heaping helping of hot and hardy beans and ham, served with cornbread and fried potatoes and, of course, a drink. Yes, carry out will be available, but you are invited to bring your lawn chair and sit a spell and enjoy listening to the Thorntown Bluegrass Pickers while you chow down.

If it is warm, you might want to bring some bug spray. If it is cool, you might want to bring a warm coat or blanket (or both). And if it rains, you won't have to worry because the supper will be postponed entirely to a later date.

Funds collected will be used to offset the operating expenses of the Historical Society's Museum located at 315 S. Main St. If you have not had a chance to visit the new museum, you're invited to come in for a tour. The museum is open to the public on Tuesday and Friday afternoons of each week from 1 to 4 p.m. If you cannot make it during our open hours, please call (317) 758-5054 and leave a message so museum staff can contact you to set up a tour ap-

### Coronavirus infections in kids increased 240% since July

By DR. MARY GILLIS, D.Ed.

WISH-TV | wishtv.com

COVID-19 infection in children has skyrocketed in a matter of weeks according to the latest data from the American Academy of Pediatrics.

The pediatrician group says the exponential rise amounts to 240 percent since early July. Health experts say this is both alarming and concerning. In the latest report released by the group, the number of infections spiked from 71,036 cases to 243,373 cases. Children now make up 29 percent of all infections nationwide.

WISH-TV News 8 reached out to Dr. Christopher Doehring, vice president of medical affairs at Franciscan Health, to ex-

plain why.

"Back in July the numbers were relatively low amongst children in general," Doehring said. "And it was really before the pandemic delta surge really hit us. Keep in mind school started back and most school-age children are not able to get vaccinated against COVID."

Given the combination of the three – the delta surge, kids back in school and not yet eligible for the shot, Doehring says he's not surprised. In fact, he thought the percentage would be higher.

However, Doehring also says it's important to keep these numbers in perspective. To date, children in Indiana make up just 0.1 percent of hospitalization in the
