Hope and happiness

It's been three weeks since my mom's funeral, and I'm surprised that most of my memories of the day are happy ones. This was completely unexpected, but true.

Hahn Funeral Home in Mishawaka provided us tremendous comfort and joy.

They handled everything seamlessly, which made things so much easier for us. Jordain and Mary in particular were rock stars!

Mom's funeral service at St. Bavo Catholic Church across the street was utterly beautiful. At first, I was a bit grumpy about it. They wouldn't allow us to use the readings we wanted and I didn't understand why. But as my niece and I prepared to read them out loud during the service, I realized they picked out good ones - even better than what we had selected. The words were full of hope and comfort.

But when I was introduced to Prevail of Central Indiana, I was shocked by the number of individuals who are affected by domestic violence. In 2018 alone, Prevail helped more than 4,000 clients in Hamilton County (nearly 80 percent of clients are women and children). Domestic violence and abuse are hard topics to discuss, so you don't often hear about them. But at Tom Wood Volkswagen in Noblesville, we're breaking the taboo and raising awareness for Prevail, an organization that helps families in Hamilton County.

Hope & Recovery comes to Noblesville

Americans per year – more than vehicle crashes and gun deaths combined. Fentanyl, a legal prescription pain medication, is responsible for a large number of these deaths. Hamilton County is not immune to this drug pandemic problem!

Hope and Recovery Centers Inc., a 501(c)(3) not-for-profit organization, has Noblesville for the last few years. The

Drug overdoses kill more than 100,000 of sober living with various phases, using donations, foundation money, and grants. Hope and Recovery Centers Inc. has joined forces with the Miller Care Group, Step-Up Staffing and Chapel Church to provide a comprehensive ministry-based drug rehabilitation service to individuals with alcohol and drug addiction.

Our first foundation was established this been preparing for its grand opening in week as Brian Foundation. Brian died at the tender age of 43 due to abusive alcoholism

port to the needs of the community so that no one would experience the pain of losing a loved one due to addiction. In lieu of flowers, they requested donations be sent to Hope and Recovery Centers Inc. A full 100 percent of this funds are designated to provide support medications necessary for individuals to combat opioid addiction through Miller Care Group.

Noting that a major issue is fear of opioid withdrawal, four years ago, the FDA approved a single medication to mitigate opioid withdrawal called Lucemyra (Lofexadine). Clinical use has HOPE AND RECOVERY

shown this non-opioid medication to be a major treatment for withdrawal, which can last for days. The medica-

tion can be costly, as despite FDA approval, far too many insurance companies have not yet adopted it as a mainstay in the treatment of opioid addiction. The use of this medication has the potential to be a major game changer by helping opioid substance abusers mitigate the potentially horrific effects of withdrawal. Subsequently, preventative measures, including mental health counseling, psychiatric intervention and use of Vivitrol (an opioid and alcohol blocking injection) is employed.

Hope and Recovery Centers Inc. is planning to be the most comprehensive rehabilitation centers for patients and their dependents by providing services unlike anything else available in the industry. The future planned phases are as follows:

Identify candidates suited for the program.

The addicted individual needs to release their decision-making control to the program of Hope and Recovery Centers Inc. now recovered patient employed and mon-This allows Hope and Recovery to become his/her guardian and will provide assurance of continuity of the recovery. This act will prevent the patient from prematurely opting out of the program. Many other recovery programs fail to achieve this, because the decision to stay loyal to the program is made by a drug-impaired patient. When committed to treatment, Hope and Recovery will pay for the patient's full insurance to prevent financial bias.

doctor, a medical intervention is conducted to start an immediate detox for all abused substances including alcohol, opioids, stimulants including methamphetamine, cocaine and spice, benzodiazepines, marijuana, etc.

Phase 2

Pathway determination (21 days).

Each individual patient is unique in their circumstance. The program is tailored to consider all factors (external and internal) of the patient to ensure the most effective path to success. In this phase, environmental influences such as financial stability, family dynamics, spousal dependence, children, and medical history are identified. This section is managed by the Social Services

Division of Hope and Recovery.

Phase 3

First six months of in-patient is a 24/7 stay at the gated facility with strong emphasis on medical treatment and counseling.

During this period, all contact with outside influences is extremely limited. Visitors must be screened and approved by the Medical and Social Services Division. This is necessary to remove negative associations with outside individuals during treatment. Individuals affected by addiction have an awkward way of identifying friends! Of-

ten, these so-called friends are a part of the problem. This is also necessary to avoid contamination of the

safe environment for treatment.

Phase 4

Second six months - graduate to receive educational opportunities such as GED, or six-month certification in schools/colleges that are preapproved.

This phase prepares the patient for reintegration and provides the ability to become self-sufficient financially. Patients are equipped with monitoring devices, and their location must be pre-approved. They are transported with Hope and Recovery buses, and upon return, are evaluated for any potential contamination. They also attend classes at Hope and Recovery to learn how to find jobs, complete an interview, and dress for success.

Phase 5

Step-Up Staffing starts career development and job placement.

Step-Up Staffing's mission is to keep the itor their progress. Step-Up Staffing will help the patient find employment, learn how to stay employed, provide transportation to and from the place of employment, and track the employee-employer relationship. During this one-year period, the patient will have monitoring devices on them, and when returning to the facility, they are assessed every time for any untoward issues.

Phase 6

Alumni Phase, or Final Phase, is a period of 15 years after completion of the two years in-patient.

The patient will become an alumnus and At a certified facility, under care of the will come back as a mentor for others in the program, at least four times annually. Five percent of his/her gross income during this period will be used to pay back the program for its two years of investment. The main reason for this financial arrangement is to keep track of the patient for an extended period.

No one ever completely heals from addiction. They learn how to control and live with addiction on a daily basis so that it does not consume their life.

SOBLESVILLE TOWNSHIP

As a country, state and county we will soon enter into another contentious political season. Are you a Democratic, Republican, Libertarian or unattached? To whom do you give your allegiance? What determines your political allegiance? Rest easy this is not a political ad nor is it intended to promote any party or candidate. I want us to think for a moment about what brings us to that conclusion.

When we consider our religious affiliation, what leads us to make that decision? This decision is far more significant than making a commitment to a political party or candidate. If God is who He says He is and Jesus is His Son, it behooves us to surrender and submit to Him and Him alone! God will not accept divided devotion and thus we would call on all men to worship Him and Him alone. Repeatedly in the Old Testament, we read of commands to worship Him and Him alone. Enshrined in the Law was the command to "worship no other god, for the LORD, whose name is Jealous, is a jealous God" (Exodus 34:14). Paul warned of the danger of provoking God to jealousy (1 Cor. 10:22).

Why not leave any commitment to a church founded by men, not provoke God to jealousy and seek to be a Christian and a Christian alone? Is that idea intriguing? Does it seem reasonable? Let's investigate that together.

Braun, Young greet Hoosier veterans with Honor Flight Northeast Indiana program

The REPORTER

On Wednesday, Indiana's U.S. Senators Mike Braun and Todd Young welcomed Hoosier veterans to Washington, D.C. as part of Honor Flight Northeast Indiana. The senators greeted the group of roughly 85 veterans at the World War II Memorial.

The veterans were visiting as part of the Honor Flight program, which provide veterans opportunities for expense-free trips to Washington, D.C. to visit the monuments and memorials that honor their service and sacrifice for our nation.

"We owe a debt of gratitude to the men and women that have served our nation, and today I was able to thank a few of our veterans from Indiana personally," Sen. Braun said. "God bless our veterans!"

"It was a privilege to greet an Honor Flight from Northeast Indiana today in Washington," Sen. Young said. "The service and stories of these Hoosier veterans is truly inspiring, and we are grateful for each of them."

Honor Flight Network is a non-profit organization created to honor America's veterans for their sacrifices. They transport veterans to Washington, D.C. to visit and reflect at their memorials, at no cost to the veterans. Top priority is given to the senior veterans - World War II survivors, along with those other veterans who may be terminally ill.

Honor Flight Northeast Indiana was founded in 2008 and has conducted over 30 Flights. The organization now arranges four flights per year, with approximately 85 veterans on each flight. In 2019, Sen. Young was able to greet this same Honor Flight at the World War II Memorial and FDR Memorial.

Your Hometown Weatherman!

Remind the people to be subject to rulers and authorities, to be obedient, to be ready to do whatever is good, to slander no one, to be peaceable and considerate, and always to be gentle toward everyone.

At one time we too were foolish, disobedient, deceived and enslaved by all kinds of passions and pleasures. We lived in malice and envy, being hated and hating one another. But when the kindness and love of God our Savior appeared, he saved us, not because of righteous things we had done, but because of his mercy. He saved us through the washing of rebirth and renewal by the Holy Spirit, whom he poured out on us generously through Jesus Christ our Savior, so that, having been justified by his grace, we might become heirs having the hope of eternal life. This is a trustworthy saying. And I want you to stress these things, so that those who have trusted in God may be careful to devote themselves to doing what is good. These things are excellent and profitable for everyone.

Hoosiers living around central Indiana and visitors to downtown Indianapolis only need to take one look around to realize: It's time to come "Back Home Again."

Stunning visuals alongside messaging centered around this year's marketing campaign "Back Home Again" are blanketing Central Indiana to help energize the local community and Hoosiers at heart for the 106th Running of the Indianapolis 500 presented by Gainbridge on Sunday, May 29.

Douglas Boles said. "I'm proud to show off our signature Hoosier hospitality and work with so many community partners to Month of May, including the GMR Grand
