As our community grows, we want to honor our past traditions as well as create new ones for the nearly 70,000 residents who call Noblesville home. We hope this will allow those who wish to see Santa in their neighborhood as well as those who wish to gather with friends and family downtown a great opportunity to do so. We are excited for Santa Claus to spread holiday cheer across Noblesville once again on Dec. 3 and 4."

Football players at Westfield High School (WHS) are doing more than just preparing for their sectional match-up against Carmel on Oct. 28. Coach Jake Gilbert wants to make sure his athletes are educated about their health, too.

# Nickel Plate Arts pursuing Lacy Building for artist studios

The iconic Lacy Building in downtown Noblesville is getting a new twist on its decades of rich history.

In late 2021, Chris Nurnberger and his wife Katie reached out to Nickel Plate Arts after purchasing the property. They asked what the Noblesville arts community might need and revealed that they would love to find a way for the building to be a home for artists and artistic ventures.

The building has some especially unique spaces, including two mezzanines that may make quality artist studios as well as a basement that could be some form of workshops.

At the annual "Greening the Statehouse" meeting held on Oct. 15, the Hoosier Environmental Council (HEC) awarded local community group Don't Leave It to Beaver (DLITB) with the Frontline Organizer of the Year award, honoring the grassroots effort to ensure clean water and protect the environment by opposing the gravel pit operation near Potter's Bridge Park and the White River in Noblesville.

The gravel pit proposal was first submitted in the fall of 2020 and posed potential risks to the water supply in nearby underground aquifers. It was ultimately rejected by the city's Common Council this past June after a considerable number of Hoosiers, led by DLITB, organized against it.

#### **The REPORTER**

On Oct. 15 and 16, 2022, nearly 200 passengers boarded the Nickel Plate Express at Hobbs Station in Noblesville. When they disembarked in Atlanta, Ind., the year was 1922. They were in store for an evening of food and entertainment at Earthly Endearments where music was in the air and murder was on the menu.

According to Det. Howard Forthright, famous musician, singer and professional "entertainer" Gloria Call was apparently poisoned during dessert by her past paramour, nerdy newsman Franklin Fontano.

Call was performing with The Stompers band at a 1920s club owned by Eugene Williams.

Call had been seen by numerous guests having conversations that ranged from intimate to strained to heated with Fontano both on the train and at Earthly Endearments. Fontano, who provided Call with numerous drinks during her set, claims he was only giving her club soda in an attempt to slow her conspicuous consumption of gigglewater that started on the rolling juice joint that train became during its time-ripping rail ride into the past.

#### Citizens Gas of Westfield proposes rate hike, asks for customer comments

#### **By KAYLA RUSSELL** WISH-TV | wishtv.com

Citizens Gas of Westfield is proposing an annual revenue hike of \$1.29 million.

The utility group, which services over 6,100 customers in Hamilton County, says the increase is necessary to cover higher operating and maintenance costs and pay for infrastructure improvements related to rapid community growth, the group said.

Basic distribution costs are responsible for about 58 percent of a residential bill, while the remaining 42 percent of a typical monthly bill pays for the natural gas itself.

The group says the proposal would affect natural gas rates and charges in its Westfield service territory. It would not affect Westfield's water or sewer rates.

Indiana's Office of Utility Consumer Counselor invites any customer to submit written comments until Nov. 25.

The first tour will begin at 9 a.m. and the traditional downtown parade will be held at 2 p.m. Another three routes will be held Sunday, Dec. 4 west of the White River.

Routes are still being designed and will be announced in the coming weeks.

Due to COVID-19 cases and public health concerns, several changes were made to the city's holiday events in 2020. The "Home for the Holidays Tour" with Santa Claus and several city departments including the police, fire, street, engineering, utilities and parks vehicles was created as a way to take Santa to the people and thank first responders and essential workers. Instead of hosting a large gathering, Santa made his way throughout Noblesville neighborhoods.

"The pandemic made us be creative to keep the holiday spirit alive," Jensen said. "In the four years prior to the change, organizers saw a decline in parade participants and attendance. By changing the format, we immediately saw larger crowds of enthusiastic residents that really enjoyed the new plan, and we heard positive feedback from many residents who otherwise would not have been able to participate at an offsite location. Jocelyn Vare, candidate for Indiana State Senate District 31, stood with nine fellow Democrats at the Indiana Statehouse on Monday to extend an open invitation to all Hoosiers.

Vare worked closely with her peers to invite people in Indiana to build a brighter future for women and girls across the state by signing the Contract with Women. Whether Democrat, Republican, Libertarian, Independent, or undeclared, Hoosiers are asked to sign the contract in solidarity for Indiana's future.

As part of her pledge, Vare shined a light on domestic violence and shared her personal experience.

"Indiana can no longer be the state that ignores and controls women," Vare said. "As a Democrat, I am proud to sign the Contract with Women. It is a promise to prioritize and serve Hoosier women. # Millers boys & girls sweep semi-state soccer

**By RICHARD TORRES** For The Reporter

KOKOMO – Last Saturday was a great day to be a Miller.

With a chance to become only the fifth school in IH-SAA history to compete in both the boys and girls soccer state finals in the same year, the Noblesville Millers completed the sweep, winning both Class 3A semistate titles in Kokomo.

The reigning 3A boys state champion and seventh-ranked Millers kicked off the 2-for-2 performance by eliminating No. 15 Penn, 3-2, to claim the program's second straight semi-state championship and third overall. They will next face No. 4 Columbus North in the state finals at IUPUI's Carroll Stadium in Indianapolis at 1:30 p.m. Saturday.

The No. 1 nationally-ranked Noblesville girls team captured its third semistate title in four years with a dominating 7-0 win over No. 12 Crown Point, putting itself in position for a potential third state crown since 2019.

The Millers' girls will contend with No. 3 Carmel (18-2-2), which is ranked second in the nation, according to MaxPreps, in the state finals. That game will start at 4 p.m. Saturday, following the 3A boys game.

"You're going to get the best of the best in Hamilton County in any sport really," Noblesville sophomore Meredith Tippner said after the Millers won their 10th straight game. "I think it's weeks ago. That doesn't cargreat we've been able to ry over. That's a really good compete against all these soccer program. They're great teams, but to end it very well coached. They

we know we're going to have good opportunities around the goal," Noblesville head coach Mike Brady said. "Tonight, she just finished every one she had."

Tippner made it 6-0 in the Millers favor in the 38th minute, taking a corner-kick assist from Victoria Goodwin and turning it into her 15th goal on the season.

"We're a team that doesn't want to force anything. We feel how it's going to go, and once we get that first goal and it starts to click, that's when you see one, two, three goals pile up pretty quickly for us," Tippner said.

Pittman scored a goal in the 28th minute off an assist from Mia Brake to make it 4-0. A goal by Bramblett assisted by Tippner pushed the margin to 5-0 in the 36th minute and launched the IHSAA mercy-rule running clock.

Stella Scroggin supplied the final goal in the 43rd minute, marking the most goals score by the Millers this season. Noblesville's shutout was its 15th on the year.

The Millers defeated Carmel during the regular season, 3-1, at home on Sept. 19, but coach Brady and his team aren't predicting anything easy against the 10-time state champion Greyhounds and head coach Frank Dixon, who has the most state titles of any girls coach in IHSAA history.

The Miller boys (15overmatched Crown Point 3-3) established a 2-0 lead over Penn (13-5-4) early on during their semi-state game, but it was a clutch second-half goal by senior Pavlos Michaeloff that broke up a 2-2 tie and propelled Noblesville back to the state finals.

Michaeloff, who subbed ter a brief exit due to injury, came through in the 72rd minute taking a Samuel Divis assist and turning it into the go-ahead goal.

away from the Braves late in the first quarter and then roared to a 51-18 victory. It was the first sectional win for Heights since 2017 and sends them into Friday's semi-finals.

"I'm very proud of the effort tonight," said Huskies coach Jon Kirschner. "Very proud all the way around."

Maconaquah got on the board first with a 41-yard touchdown pass less than two minutes into the game. But after that, Heights took over, as the first quarter and a half became the "Trey Ehman and offensive line show," said Kirschner.

Ehman dominated the first quarter, scoring three touchdowns. His first was a 71-yard streak into the end zone at the 9:26 mark to tie the game, and a Teigan Scoles extra-point kick put the Huskies in front. Ehman scored again midway through the period on an eight-yard run.

Maconaquah quickly struck back, scoring on a 76-yard pass from Kaleb Shleton to Braxton Birner. The Braves tied for twopoint conversions both times, but didn't get either one, so Heights led 14-12.

Maconaquah got the ball back, but tried to punt. The Huskies' Kaleb Murray blocked the punt, which led to a safety. Heights now led 16-12, and that became a 23-12 lead after Ehman those completions resulted scored on a 12-yard run in touchdowns. Scoles was with 1:37 left.

> Derrer's first TD was a 30-yard throw to Vincent Harley early in the quarter. Derrer then ran the ball in from 12 yards to score, and followed that with a nineyard toss to Tyler Champion. Derrer than began the third quarter with one more touchdown pass, a 30-yarder to Evan Tilton. That completed the scoring, and the Huskies were up 51-12.

"It was a good night," said Kirschner. "Very dominating night for the Huskies. I'll give Maconaquah credit. They're young. They've got some very talented receivers." Kirschner also noted that the Braves have some good skill players coming up as well.

Heights' defense also played well. Jaylyn Pugh caught an interception in the end zone in the final minute of the first half. Carson Fettig "played extremely well," said Kirschner. "Probably had one of his top two or three games of the year. We had several batted balls. We knocked down a lot of passes tonight." The coach noted that Dean Mason "had a couple pass breakups."

Ehman finished the game with 224 yards rushing, with Owen VanHaaren collecting 155 yards on the ground. Derrer was 3-for-5 passing, but all three of 7-for-7 in extra-point kicks.

"It was definitely a test," said GC coach Tom Dilley. "It was a very competitive night." The coach said his team "had to dig deep, a few of them had to do some things they hadn't done before," such as play both ways and fill in for other players who were banged up.

"I feel like we had some growth tonight," said Dilley.

The coach said that Oak Hill is "a good team," with talent in every level of its defense, and talented players who carry the ball and on the offensive line.

"They know who they are and they play hard," said Dilley.

Guerin Catholic never trailed, scoring the game's first touchdown when Justin Zdobylak ran into the end zone from six yards. The Golden Eagles added another touchdown in the second quarter; Anthony Ferrucci made a three-yard sprint for the score. # HSE avenges early season loss in Noblesville regional championship

#### **By RICHIE HALL** sports@readthereporter.com

**NOBLESVILLE** The last time the Hamilton Southeastern volleyball team played McCutcheon was the first game of the 2022 regular season.

The Mavericks beat the Royals in four sets. Since then, Southeastern has done nothing but win. Last Saturday, the Royals got their biggest win in several years, avenging that loss to Mc-Cutcheon by beating the Mavericks in four sets to win the Noblesville regional championship.

After a shaky first set, Southeastern got stronger as the match went on, eventually winning 16-25, 25-21, 25-18, 25-19. The Royals won their third regional championship in program history (the other two were in 2015 and 2019), and also dethroned last year's Class 4A state champions.

Southeastern is now 31-1 and will play Lake Central in the 4A north semi-state Saturday at Frankfort. The match will start around 2:30 p.m., after the 2A north semistate between Andrean and Wapahani.

'We didn't expect a three-set match," said HSE coach Jason Young. "We expected four or five. We talked about, the score doesn't matter. It's just one-nothing, and just go back to work."

The Mavericks jumped out to an 11-4 lead in the first set, eventually expanding their lead to 18-9 and holding on to that margin from there. The Royals got it together in the second set, taking an early 4-2 lead thanks to kills from Lauren Harden and Avery Hobson.

McCutcheon came back to lead 8-6 early in the set. The Mavericks' Pur-

due-bound Chloe Chicoine was her usual dominant self, pounding the ball on the corners. But Southeastern hung in there, and used two Harden kills to take the lead back at 11-9.

"The middle of set two, it was back and forth," said Young. The coach said that "it was at that moment that we finally flipped the switch and just started playing a bit differently and getting after it and doing what we do, which is serve the ball tough, pass the ball tough and be big at the net."

It seemed like everybody was getting in the act. Hobson, Tiffany Snook and Breonna Goss all hit kills during the second set. That timely offense helped the Royals to weather any storms by the Mavericks, who led 17-15 midway through the set.

"We've been growing more and more as a team," said Goss, who credited "team bonding and being together" with HSE's success.

"I think we just changed our mentality," said Snook. "We realized that we weren't a block. Goss finished the set going to just win this and we actually had to earn it."

McCutcheon led 18-17, eastern the set. but the Royals took off on a 6-0 run that included an ace by Macy Hinshaw and a block by Lindsey Mangelson. Southeastern led 23-18 at that point, and eventually ran out the set.

The Mavericks took an early lead in the third set, trol of the match, the Royals going up 8-7 early. Madison Evett stepped up with backto-back kills to push the Royals up 9-8. After that, South- set, with Hobson, Snook, eastern never trailed in the Evett and Mangelson all hitmatch again.

I was born and raised right here in Noblesville. I grew up in a home without domestic violence or assault - it wasn't something I saw, or even heard about. But when I was introduced to Prevail of Central Indiana, I was shocked by the number of individuals who are affected by domestic violence. In 2018 alone, Prevail helped more than 4,000 clients in Hamilton County (nearly 80 percent of clients are women and children). Domestic violence and abuse are hard topics to discuss, so you don't often hear about them. together and anyone that knew them, knew they came as a package. Their love was everlasting and stood strong as the years went by. One of his final comments to his family was acknowledging his love for Ardell saying, "I love that woman! I wouldn't have made it without her. I've been with her my whole life." Although he was always proud of catching the biggest fish, his true pride in life was that he caught the biggest prize of all, his dear wife Ardell.

In 1954, Fred moved from Pennsylvania to the Midwest and settled in Sheridan to begin what became a long and happy life with an ever-growing family. Fred was the proud father of four wonderful children that were the joy of his life. He was the proudest dad and could often be heard telling stories about all his children's successes in life. He stood with his children in good times and bad making sure that regardless of the outcome that they knew they were loved. He was a strong man that valued hard work and honesty. He passed down to all his children the same strength and devotion to their own families.

Fred was the best Grandpa and was so proud of his grandchildren. He could be seen on the sidelines of ball games, attending grandparent's days at their schools, talent shows, watching many weddings, and holding lots of newborn great-grandchildren. He loved to tease all the kids and Hamilton County, as defined see them smile.

Sarah Jane (Taylor) Waitt, 92, formerly of Sheridan,

passed away on Sunday morning, October 16, 2022, at the home of her daughter and son in law, Marylee and David Pound, where she had been living since Mav.

She was born on May 23, 1930, to Mrs. Kathryn Taylor in Cincinnati, Ohio. Her father, Odus Taylor, passed away in March, just before she was born. Her family moved to Sheridan

after her birth, and she resided there until 2016 when she moved to Wellbrooke of Westfield with her husband.

She was a 1948 graduate of Sheridan High School and attended Earlham College.

On September 25, 1954, she married Dr. Paul Waitt, and together they would celebrate 66 wonderful years of marriage prior to his death on October 3, 2020.

Sarah Jane was a full-time mother and homemaker. Her six children kept her busy as she shuttled them to activities, ball practices, and games. Her car was always in motion.

She began a second life after the graduation of her youngest in 1983. She was a birthright Quaker and a member of the Sheridan Friends Meeting. She served in the Western Yearly Meeting and would ultimately become president of their United Society of Friends Women - a position that afforded her the opportunity to travel throughout the Midwest to serve in that capacity. She faithfully served on the Board of Directors for both Earlham College and Conner Prairie during that time as well.

She traveled with her husband to China, Russia, and Germany, as well as mission trips to Kenya and Palestine. She also enjoyed the years she was able to winter in Naples, Fla.

Sarah Jane loved holidays – especially Christmas. Deck the halls wasn't just a song to her. She liked nothing better than to have all the "troops" home with her for a party, or just a Sunday dinner.

She is survived by her children, Marylee (David) Pound of Indianapolis, Tom (Sally) Waitt of Sheridan, Reid (Kim) Waitt of Raleigh, N.C., Susan (Alan) Gossard of Sheridan, and John (Karla) Waitt of Sheridan; daughter-in-law, Carolyn Waitt of Aurora, Ill.; 14 grandchildren, of which she was a very proud to be their Mema, John Paul and Chloe Pound, Ross Waitt, Katie (Lawson) Kilpatrick, Luke (Allison) Waitt, Samuel (Shannon) Waitt, Taylor (Katie) Waitt, Kathryn (Mac) Schultz, Lauren Waitt, Grant (Michelle) Gossard, Garrett (Brittany) Gossard, Emily Waitt, Sarah Waitt, and Jack (Brittany) Waitt; five great-grandchildren, with November bringing baby Gossard - number six, Ava Waitt, Merritt and Oaks Kilpatrick, and Max and Joe Gossard; and many nieces and nephews.

Master Mason by his son, Bruce Evans. He was proud of being a Brother Mason and was honored to live by their principles and share in the fellowship.

Fred will be remembered as a skilled fisherman, avid hunter, and an expert storyteller. His stories ranged from finding many coolers full of morel and snake head mushrooms in the woods of Michigan and Indiana; the battles with Tennessee's water snakes; fishing and boating the chilly waters of Minnesota and Ontario, Canada; and even bear hunting in the hills of Pennsylvania. He was one of the greatest fishermen that people knew. He was so proud to tell everyone that his biggest fish was caught in Orr, Minn., on the Vermillion River and was a 29-pound, 54-inch Northern Pike. He loved to go fishing with his wife and kids as well as the many friends he made over the years. He was always happiest in the seat of his boat, his family and friends by his side, a fishing pole in his hand, and the sun coming up over the horizon. There was always a plentiful feast to follow with the day's catch. Fred also found his passion in wildgame hunting. He would often travel to Iowa with his bird dogs to score his prized pheasants and quail; enjoyed hunting deer, rabbit, and raccoon in Indiana; and hunting geese, turkey, rabbit, and deer in Pennsylvania. It provided him a great honor to teach his sons how to trap game. He was also proud of his many accomplishments as a self-taught bowler and golfer – earning trophies in both throughout the years.

Fred is survived by his wife, Ardell (Thrasher) Evans; his children, Fred Evans, Jr. (Christy) of Lima, Ohio, Theresa Evans of Sheridan, and Bruce Evans of Sheridan. Fred's nine grandchildren include Brad Sutton (Adrian), Jeff Sutton, Todd Jones, Kyle Jones (Stef), Rodger Chaudion, Brett Evans (Sandra), Stacey Dollahan (Steven), Danielle Richie (Zach), and Bruce Evans. He was also blessed with 27 great-grandchildren, Kaleb, Nikki, Summer, Emma, Logan, Alyssa, Bryce, Brandon, Wyatt, Anna, Austan, Drew, Brooke, Bailey, Jeffrey, Kate, Dane, Rory, Cayden, Collin, Parker, Cooper, Addie, Gabrealla, Abigail, Olivia, and Raegan; and eight great-great-grandchildren.

### What is marriage?

COLUMNIST

**RAY ADLER** 

Ask Adler

We can all agree that marriage has changed over the years, but do you know the legal definition? In Maynard v. Hill, an 1888 United States Supreme Court case originating out of Oregon, the Supreme Court stated in its opinion:

"Marriage, as cre-

ating the most important relation in life, as having more to do with the morals and civilization of a people than any other institution, has always been subject to the control of the legislature. That body prescribes the age at which parties may contract to marry, the procedure or form essential to constitute marriage, the duties and obligations it creates, its effects upon the property rights of both, present and prospective, and the acts which may constitute grounds for its dissolution."

Moreover, the High Court reasoned that marriage:

"... is a social relation like that of parent and child, the obligations of which arise not from the consent of concurring minds, but are the creation of the law itself, a relation most important, as affecting the happiness of individuals, the first step from barbarism to incipient civilization, the purest high of social life and the true basis of human progress."

The case, when reduced to elementary principles, was about property rights in a divorce, but the facts were most interesting.

• David Maynard set off on the Oregon Trail without his wife, Lydia, and two children, stating that he would send for them. He never did.

· He falls in love with Catherine Brashears and in the interest of marrying his new love, seeks a divorce from the Oregon legislature, which is granted.

• Lydia, eventually shows up in Oregon to assert her rights to a portion of the land, which are ultimately denied.

• This case went on for many years. Eventually, Lydia did die, and her children took up the claim.

Black's Law Dictionary defines marriage as the formal union of a man and woman typically recognized by law by which they become husband and wife.

As you may know, the courts and legislators have had great difficulty defining marriage. Is marriage something so sacred and holy it should not be defined in law at all? After all, the State does not define holy communion. Neither does it define baptism. Why is marriage different?

Marriage was a custom long before the State issued licenses. For a time, the records of marriage were kept by the church. Some states, even now, recognize common law marriage, which has neither the endorsement of the State nor the at me. If he and his family were is wonderful to hear from you. clergy. Some view marriage as a union of one man and one woman, primarily for bearing and raising children. Such a perspective places a high value on monogamy and fidelity. The welfare of children is why marriage is important to the common good, it is argued, and why the State should recognize and regulate it. Others, however, believe that marriage is the union of two people, no matter the gender, who love and care for each other and share the burdens and benefits of domestic life, enhanced by whatever form of sexual intimacy both partners find agreeable. The state should recognize and regulate marriage because it has an interest in stable romantic partnerships and any children that they may choose to raise. Judge Z Irretrievably Broken, Tim Philpott (2015). In Deboer v. Snyder (one of the cases which was consolidated and eventually come before the United States Supreme Court in Obergefell v. Hodges), the Sixth Circuit Court of Appeals opinioned: "Imagine a society without marriage. It does not take long to envision problems that might result from an absence of rules about how to handle the natural effects of male-female intercourse: children. May men and women follow their procreative urges wherever they take them? Who is responsible for the children that result? How many mates may an individual have? How does one decide which set of mates is responsible for which set of children? That we rarely think about these questions nowadays shows only how far we have come and how relatively stable our society is, not that States have no explanation for creating such rules in the first place." For the first time in history, children can have many different parents. They can have a sperm donor parent, an egg donor parent, a birth parent, and social parents who raise the child, adoptive parents, and stepparents. Traditional marriage is one of the oldest institutions in civilized society and has been a bedrock of western society. What societal impacts will emerge from our country's changing attitude and understanding of marriage? Have we already seen the impact?

Earlier this month, Sheridan Youth Assistance Program (SYAP) sponsored a Construction Career Exploration Day to give students at Sheridan middle and high schools exposure to different careers in the construction and trades industries.

Students were surveyed by teachers, and students specifically interested in construction careers were invited to visit the event during their Student Resource Time. In addition, all students in grades 7 through 12 were welcome to visit during their lunch period. Organizers estimate that over 100 students participated in the event that included nine booths of employers and trainers.

"As a district we have set some very high goals for enhancing our internships and hands on practical learning," Superintendent Dave Mundy said. "The job fairs are an integral part of our students getting to see first-hand all the various areas of future employment that are available to them. I really appreciate the focus many of our teachers have put into developing these opportunities for our students."

According to SYAP Program Coordinator Beth Sabelhaus, "SYAP is passionate about supporting youth in Sheridan to become successful adults. As an alternative to a a huge fair which can be overlarge traditional job fair, SYAP whelming for many students.

Employers in the construction field were invited to set up booths and encouraged to make their booths interactive. According to Sabelhaus, students were excited to try the hands-on displays and check out information including training requirements and salary expectations for different jobs and trades.

Bill Keevern, Lead Instructor of ABC Commercial Construction Prep Academy, said, "It's hard to gauge the success of the event since there was such a wide range of ages attending. For most I thought it was planting the seed as a viable alternative to other career options."

Sheridan High School (SHS) Principal Rick Davis said he was pleased with the impact the career fair had on students who show an interest in the construction trades.

'The Mini Career Fair was a great opportunity for our students to contact potential employers and learn more about the construction trades," Davis said. "Having a smaller, more intimate career fair allowed students to dive deeper and have longer interactions with the companies present compared to

# Why does it take so long to get Medicare when you already qualify for disability?

For most peo-COLUMNIST ple, it will take about two years to file, be declined a few times, appeal, appeal and finally get approved for Social Security Disability Bene-SYLVIA GORDON fits (SSDI).

After that long slog to approval, many people are shocked to find out they don't qualify for much. There is no set SSDI benefit. If you've worked and paid into the Social Security system long enough to qualify, you will get a monthly payment based on how much you paid in. Don't guess. You can set up a free account at ssa.gov today and see how much the government estimates you will be paid if you are disabled or retire.

The average disability payment is \$800 to \$1,000 per tions that are so severe that they month. If you are married, there is no limit to your partner's income. But if you live alone, it's very hard to survive off SSDI alone. Many people inquire about some part-time work, but the SSA limits the amount you can earn to \$1,350 per month in gross income. (The blind are allowed more.) Don't go over your monthly earnings limit or you will lose your hard-won SSDI.

shocked to learn that your access to Medicare won't start for two years. This makes no sense. The government determined you are unable to work, so why does it take so long to qualify for healthcare? The answer is pure politics.

Eighty-seven years ago when FDR signed Social Security into law, it had no provision for the disabled. It took decades to enact legislation to allow disabled workers to tap into their Social Security retirement early. In the 1970s, when this provision was advanced, the Republicans pushed back on the cost. To compromise and get the law passed, it was agreed that Medicare benefits would not start for two years.

Now there are some condiqualify for Medicare immediately. Others qualify in a few months, but the vast majority of the disabled have this two-year waiting period to contend with. They may qualify for Medicaid if their income and assets are low enough. Indiana is one of the hardest states to qualify for Medicaid. > when your SSDI payments began, you will likely again be shocked that you have to pay for Medicare Part B. My clients tend to assume it will be free ... because they can't work. Some people are on their spouse's work insurance and don't realize that Medicare began automatically. The Medicare Part B cost will be taken out of your disability payment. For those who don't need Medicare, they must file to stop it. For those who need Medicare, they are again - I think you know I'm going to say SHOCKED - that they can't get the Medicare Supplement plan they want.

> Most states don't require insurance companies to sell all plans to those under age 65 on Medicare due to disability. Florida does! Most states do not. Indiana doesn't allow the disabled to purchase a Medicare Supplement Plan G until your 65th birthday. Those on SSDI in Indiana will typically purchase a private Medicare Advantage plan.

Here is the golden nugget of information if you or someone you know is on SSDI: at age 65 you are eligible for a Medicare Supplement plan from any com- *themedicarefamily.com*.

Even if you have been on Medicare for years, you get a new At the two-year mark from entry into Medicare just like everyone else who is just turning age 65. Even if you are very ill.

> Unfortunately, many people call the insurance companies to apply for a Medicare Plan G when they are under age 65. They are told they don't qualify. They don't realize that in the future they will be eligible for a seven-month window and if they don't take advantage of that time to enroll, they will likely never be able to purchase a Medicare Supplement plan.

Given that those on SSDI have health conditions, they are often better off on a traditional Medicare Supplement Plan. Especially if you are on kidney dialysis, you will save a lot being on a Plan G versus a PPO or HMO plan. The time to explore your Medicare options is typically in the 21st month after starting SSDI benefits. That gives you time to make a decision before your Medicare Part B kicks in at your two-year mark

Volunteers observe these painful circumstances and offer referrals to organizations built to handle these situations. Pantries regularly receive hundreds of meals each month. #### The REPORTER

Good Samaritan Network (GSN) of Hamilton County, Inc., a local nonprofit 501(c)(3) organization, has announced the ninth annual Hamilton County Festival of Trees.

The return of this holiday tradition marks a significant impact for Hamilton County families because it helps provide direct funding for Holiday Assistance to the unserved, at-risk, and underserved.

The Festival of Trees will be held at 6 p.m. on Saturday, Nov. 19 with an onsite live event and auction, as well as a silent auction both onsite and offsite. The live event will take place at the beautiful Renaissance Indianapolis North Hotel, 11925 N. Meridian St., Carmel. I felt ashamed for worrying about what other people thought about what I did with my toes.

So, yes, near the end of pedicurist my second pedicure, I was prepared for the return of the BIG QUESTION: "What color toenail polish would you like?" Forget that it was Brynne's 50th birthday; facing that question again was the main reason I had returned. It was redemption time.

> Instead of maneuvering from my massage chair and eyeing the exit, I pointed my thumb "hitchhiker style" at Brynne and answered, "I'll have what she's having."

> I was determined to get norm, to stop conforming, to be my own man. Judge me and be damned. I was tired of toeing the line.

With foam separators between my toes, I knew there was no turning back. I was actually going through with it!

Both pedicurists seemed surprised. Apparently, a man in their massage chairs was a rarity. Brynne's pedicurist recalled a male customer who requested a polcustomers and employees Don't get me wrong. in the spa that he was still "ALL MAN" ... whatever that means.

It has been three weeks now since Brynne's birthday, and I'm still surprised each time I put on or remove my socks and see my spa treated toes. When I glance down in the shower and see my painted toes, I can't help but think that I'm standing in someone else's feet ... a creepy thought.

Still, seeing my happy feet brings a bit of joy to my otherwise mundane days.

Next time, maybe I'll go for a crazier color scheme, really loosen up, give those pedicurists something to really talk about.

Yes, there will be a next time, for I'm a man comfortable in his own feet.
