### Recess

Elementary school recess. It should be a great time in a child's life. Something to look forward to. It helps to break up the long school day. I remember my own boys loving the time to go out and run around and get a mental break during their early school years.

I'm not saying recess was always a bad time for me, because it wasn't. There was certainly some fun that was had, but also, to be honest, it often gave me a pit in my stomach. Some days were worse than others depending on the activity the masses wanted to do that day. The mental load is so heavy for a child with a disability. There are so many moving parts and things you have to constantly be on top of just to keep it all together. Even at such a young age. It's a lot.

Each time I would see the hopscotch design drawn on the pavement, I went into an internal panic. Most of these emotions and insecurities were kept inside my young mind, not shared with anyone. I watched as kids hopped along with ease, careful to avoid the dreaded missteps. I couldn't even begin to hopscotch correctly. I tried of course, because I wanted to do what the other kids were doing. I wasn't able to stand on one leg or hop. Sometimes, kids would tell me I wasn't doing it right, to which I wanted to scream, "yes, I know!"

The general running around during recess also left me feeling inadequate and left out. I often gravitated to the swings, where I knew I could participate.

One of the pieces of playground equipment was four metal chickens with seats that were attached to giant springs. Kids would get on and bounce as hard as they could. I always avoided that because number one, it was really difficult for me to even get up on, and two, my muscles were too weak to keep me on if it bounced too hard. Finally, my friends talked me into it and promised to be gentle with their bouncing and helped me climb on. They held true to their promise, and I was having a great time. Until one of the boys, notorious for being the school bully, came up behind me. He decided it would be funny to grab the back of the chicken I was sitting on and bounce it as hard as he could. I was terrified. It only took a couple of bounces before I went flying and landed hard on my back and hit my head on the concrete below.

Grandma told me stories, but mother wrote hers down. Here's another one.

Without a doubt, mothers are needed at home when there are young ones. Best things are not always possible, so mothers and others often must settle for less. Some-

times it works out happily.

Daughter was in the rapid-growth stage. She needed a dress for the times when slacks or shorts-her favorite costume-would not do. Other years Mother would have remedied the situation with a few hours at the sewing machine. This year Mother was getting her "smarts" while often wondering if she were losing the few she had.

Daddy being of an understanding and helpful nature, suggested that the three of them go shopping. A quick swipe with a wash rag, a hasty brushing of the hair, a double check of purse contents and they were off to the city. Hooray! At the first store-no luck. And so on down the list until Daughter was almost in tears, Mother was worn to a frazzle, and Daddy-well-Daddy was still helpful. "We'll go home through Bluffton," he said. "They have several stores." Mother was cheered considerably but Daughter had reached the conclusion that no one anywhere made dresses her size in a style appropriate for her.

Soon the trio reached Bluffton, and without hesitation Daddy parked near a store that catered to young ones. Unenthusiastically, Daughter followed Mother in. A helpful clerk asked what was needed. Then she brought one-two-three-four! possibilities. Daughter liked all four and all four fit. Now the delicious decision of choosing The Dress.

As it has done for many years, time marched on. Another summer had come and Daughter again needed a dress. And poor, old Mother was still trying to get her "smarts." (It gets harder as one gets older.) This time it was more than "just a dress" because it was for a very appointed. This time Mothspecial occasion. grandfather, and great-grandfather, passed away unexpectedly on July 20, 2024. He was born on January 11, 1938, to Tad and Ceil Chemelewski in Peru, Ill.

David graduated from LaSalle-Peru Township High School, where he worked in the family ice and coal delivery business, earned the Boy Scouts' highest rank of Eagle Scout, and excelled in swimming and various high school sports. Upon graduation, David enlisted in the U.S. Navy, serving as an aviation electronics technician on an aircraft carrier.

After four years of dedicated service, he pursued higher education at Indiana Tech in Fort Wayne, Ind., earning a BS in Electrical Engineering in just three years. At Indiana Tech, David was an active member of Sigma Phi Delta Fraternity, serving as treasurer and president of the Fort Wayne Alumni Association. It was in Fort Wayne that he met the love of his life, Mary Kay Wehrle. After dating for a short period of time, they were married on August 8, 1964.

Upon graduation, David embarked on a lifelong career with RCA in Marion, Ind., where he and Mary Kay began their family. His career took them to Lancaster, Pa., where they spent 17 thriving years. David enjoyed traveling the world for his job, including memorable visits to Poland where he connected with distant relatives. Throughout his career at RCA, he earned various certifications, including Professional Engineer status.

David and his family cherished summer boating and water-skiing trips, as well as winter snow-skiing adventures. An avid athlete, he enjoyed playing racquetball, tennis, and golf, maintaining his passion for sports even at the age of 86. Together with Mary Kay, David was a member of numerous dinner, euchre, and bridge groups. As a lifelong Catholic, he was an active member of Our Lady of Grace in Noblesville and devoted significant time to St. Vincent de Paul, where he applied his expertise to refurbish donated electronics for resale. Always the problem-solver, David even designed a dumb-waiter to aid the food pantry in efficiently distributing food. He also invented the Automobile Entry Detector for a Garage, for which he was awarded a patent in 2006. His children always said "Daddy will fix it" whenever something was broken.

In retirement, David and Mary Kay traveled extensively throughout the United States, visiting family, skiing, and enjoying the Caribbean with their children and grandchildren.

In addition to his parents, David was preceded in death by his brother, Tad Chemelewski, and sister-in-law, Joyce (Ken).

David is survived by his beloved wife, Mary Kay (Wehrle); his three children, Karen (Paul) Roberts, Jeffrey Chemelewski, and Stefani (Bruce) Inskeep; grandchildren, Emily (Zach) Meyer, George Roberts, Megan Inskeep, Matthew (Molly) Inskeep, and Tyler Chemelewski; great-grandson, Noah Meyer; brothers, Ken and Gary (Nancy); and sister-in-law Judy Chemelewski.

A Memorial Mass will be conducted at 3 p.m. Friday, July 26, 2024, at Our Lady of Grace Catholic Church, 9900 E. 191st St., Noblesville. Following Mass, the family welcomes everyone to attend the reception.

In lieu of flowers, the family requests contributions in memory of David, be considered to St. Vincent de Paul and Our Lady of Grace Catholic Church. Envelopes will be available at the church.

### TODAY'S BIBLE READING

Then the Lord said to Moses, "Now you will see what I will do to Pharaoh: Because of my mighty hand he will let them go; because of my mighty hand he will drive them out of his country."

God also said to Moses, "I am the Lord. I appeared to Abraham, to Isaac and to Jacob as God Almighty, but by my name the Lord I did not make myself fully known to them. I also established my covenant with them to give them the land of Canaan, where they resided as foreigners. Moreover, I have heard the groaning of the Israelites, whom the Egyptians are enslaving, and I have remembered my covenant.
